Ice

Between
03:00 Mon 3 Dec 2018 and
10:00 Mon 3 Dec 2018

Icy stretches later in the night and into Monday morning rush hour.

What to expect

- Some injuries might result from falls on icy surfaces
- Probably some ice on untreated roads, pavements and cycle paths, increasing the likelihood of accidents.

Further details

Following rain or showers, clearing skies and easing winds at the end of the night will allow ice to form quite quickly in places. This is likely to make for some potentially hazardous conditions to start the working week.

✓ Medium likelihood of low impacts
